## Screenshots:

The screenshots illustrate the following components:

- Installation Wizard:** A window titled "Welcome to the Khmer Unicode Setup Wizard" with instructions to click "Next" to continue.
- Keyboard Layouts:** Multiple screenshots showing different Khmer keyboard layouts, including the "NIDA Standard Khmer Unicode Keyboard" and various custom layouts with Khmer characters.
- Windows 7 Desktop:** A screenshot of the Windows 7 desktop environment with the Start menu open, displaying various applications and icons.
- System Settings:** A screenshot of the "Text Services and Input Languages" control panel window, showing the "General" tab with "Khmer Unicode" selected as the default input language.
- Applications:** Screenshots of the "Buddhist Institute Dictionary 2.1" application and a video recording of a presentation in Khmer.
