Screenshots:

The collage includes several screenshots:

- A Blue Screen of Death (BSOD) with the error code `DRIVER_POWER_STATE_FAILURE` and a "Microsoft Fix it" button.
- A Windows 8 notification in Polish: **„Music.library-ms” już nie działa.** (Music.library-ms no longer works).
- A CPU-Z screenshot showing system specifications.
- A Windows 8 "Veuillez-vous analyser et réparer Disque amovible (F:) ?" (Please analyze and repair removable disk (F:)?) dialog box.
- A summary box titled "Driver Power State Failure Windows 8" with the text: "Driver power state failure Windows 8 belongs to Blue Screen of Death Error. Following solutions would help you deal with this error in a better manner." and a link to "Driver Power State Failure... Download Repair Tool".
- Other screenshots showing system settings and error messages.
